Date: Tuesday - June 21, 2011

Time: 9am – 4pm

Module 4: Health Disparities from a Biological Perspective

Developmental Biology and Health Disparities

Fetal Origins of Chronic Disease and implications for adult health disparities

Genetics / Epigenetics

Genomic Medicine and Personalized Medicine

Location: Lister Hill Auditorium

Date: Wednesday - June 22, 2011

Time: 9am – 4pm

Module 5: Health Disparities from a Social and Behavioral Science Perspective

Social Determinants of Health

Socioeconomic Status / Poverty

Education

Employment

Social Networks/Social Inclusion

Behavioral and Cultural Determinants

Location: Lister Hill Auditorium

Date: Thursday - June 23, 2011

Time: 9am – 4pm

Module 6: Health Disparities from an Environmental Perspective

Neighborhood Effects on Health

Climate Change, Human Health, Adaptation and Disparities

Rural and Urban Health Disparities

Immigrant Health: The Role of Multiple Geographic and Social Contexts and the salience of race and identity in immigrant adaptation and health

Location: Lister Hill Auditorium

Date: Friday - June 24, 2011

Time: 9am – 4pm

Module 7: Data and Methods

Designing Clinical Health Disparities Research Studies

Application of Data, Measurement Models and Methods in Addressing Population Health and Health Disparities

Causal Inference in Ecological and Epidemiological Studies

Complex Systems Science and methods for social and behavioral health disparities research

Location: Natcher Conference Center, Conference Room D

Date: Monday - June 27, 2011

Time: 9am – 4pm

Module 8: Clinical and Health Disparities Research in Community Settings

Racial and Ethnic Minorities

Child and Adolescent Health Disparities

Low Socioeconomic Status

Community-Based Participatory Research

Location: Natcher Conference Center, Conference Room D

Date: Tuesday - June 28, 2011

Time: 9am – 4pm

Module 9: Clinical Research in Healthcare Settings

Determinants of Healthcare Disparities

Health Literacy

Cultural Competency

Patient-Provider Communication

Access / Quality of Healthcare

Comparative Effectiveness Research

Cost-Effectiveness in Health, Clinical Care and implications for Disparities Research

Location: Natcher Conference Center, Conference Room D

Date: Wednesday - June 29, 2011

Time: 9am – 4pm

Module 10: Translational Health Disparities I – Bench to Bedside

Intramural Health Disparities Research – From Cells to Bedside to Community

The Cellular and Biological Mechanisms of Disease Conditions and Disparities

Clinical Trials: Cardiovascular Disease and Stroke, Cancer, Mental Health, HIV/AIDS, Obesity and Diabetes Research

Location: Building 31 6C Room 10 or Clinical Center (pending)

Date: Thursday - June 30, 2011

Time: 9am – 4pm

Module 11: Translational Health Disparities II – Bedside to Community Practice and Public Policy

Translating and Disseminating Scientific Knowledge into Practice and Policy

Wrap-Up / Discussion

Location: Natcher Conference Center, Conference Room D

Date: Friday - July 1, 2011

Time: 9am – 4pm
